

Steve D. Becker

Director, TC PipeLines GP, Inc.
Vice-President, Pipeline Development
TransCanada Corporation

Steve Becker is a Director of TC Pipelines GP, Inc. Mr. Becker is also Vice-President, Pipeline Development for TransCanada Corporation where he is responsible for developing greenfield natural gas and crude oil pipeline projects in Canada, United States, and Mexico. Mr. Becker is also responsible for concept development, customer origination, deal structuring and commercial negotiations for each new greenfield project. Mr. Becker is also responsible for identifying pipeline acquisition opportunities for TransCanada.

Mr. Becker was responsible for business development of the Keystone crude oil pipeline from its original inception in 2003 through various development phases to the commercial contract signing of over 900,000 barrels per day of contracts for the U.S. \$12 billion pipeline. Mr. Becker has also developed natural gas pipeline projects in the United States and Mexico.

Mr. Becker has over 30 years of business experience. Mr. Becker joined TransCanada in 1990 and during this time worked in finance, natural gas marketing, strategy, and business development positions in TransCanada.

Mr. Becker holds a Bachelor of Commerce degree (with distinction) from the University of Calgary and a Master of Business Administration from the University of Western Ontario.

TC PipeLines, LP is a publicly traded limited partnership. TC PipeLines, LP has interests in approximately 3,700 miles of federally regulated U.S. interstate natural gas pipelines including Great Lakes Gas Transmission Limited Partnership (46.45 per cent ownership), Northern Border Pipeline Company (50 per cent ownership), Tuscarora Gas Transmission Company (100 per cent ownership) and North Baja Pipeline, LLC (100 per cent ownership). Great Lakes is a 2,115-mile pipeline serving markets in Minnesota, Wisconsin, Michigan and eastern Canada. The 1,249-mile Northern Border Pipeline transports natural gas from the Montana-Saskatchewan border to markets in the midwestern United States. Tuscarora owns a 240-mile pipeline system that transports natural gas from Oregon, where it interconnects TransCanada's Gas Transmission Northwest System, to markets in Oregon, Northern California, and Northwestern Nevada. North Baja is an 80-mile natural gas pipeline that extends from Southwestern Arizona to a point on the California/Mexico border and connects with a natural gas pipeline system in Mexico. TC PipeLines, LP is managed by its general partner, TC PipeLines GP, Inc., an indirect wholly owned subsidiary of TransCanada Corporation. TC PipeLines GP, Inc., also holds common units of the Partnership. Common units of TC PipeLines, LP are quoted on the NASDAQ Stock Market and trade under the symbol "TCLP".

With more than 50 years' experience, TransCanada is a leader in the responsible development and reliable operation of North American energy infrastructure including natural gas pipelines, power generation, gas storage facilities, and projects related to oil pipelines. TransCanada's network of wholly owned pipelines extends more than 59,000 kilometres (36,500 miles), tapping into virtually all major gas supply basins in North America. TransCanada is one of the continent's largest providers of gas storage and related services with approximately 370 billion cubic feet of storage capacity. A growing independent power producer, TransCanada owns, or has interests in, over 11,800 megawatts of power generation in Canada and the United States. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP. For more information visit: www.transcanada.com
