

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended **June 30, 2012**

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 000-26091

TC PipeLines, LP

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

52-2135448

(I.R.S. Employer
Identification Number)

**717 Texas Street, Suite 2400
Houston, Texas**

(Address of principle executive offices)

77002-2761

(Zip code)

877-290-2772

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer
(Do not check if a smaller reporting
company)

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 30, 2012, there were 53,472,766 of the registrant's common units outstanding.

Item 1A.	Risk Factors	29
Item 6.	Exhibits	30
	Signatures	31

All amounts are stated in United States dollars unless otherwise indicated.

DEFINITIONS

The abbreviations, acronyms, and industry terminology used in this quarterly report are defined as follows:

Acquisitions	The acquisition from subsidiaries of TransCanada of a 25 percent membership interest in each of GTN and Bison
ASC	Accounting Standards Codification
Bison	Bison Pipeline LLC
DOT	U.S. Department of Transportation
EPA	U.S. Environmental Protection Agency
FASB	Financial Accounting Standards Board
FERC	Federal Energy Regulatory Commission
GAAP	U.S. generally accepted accounting principles
General Partner	TC PipeLines GP, Inc.
Great Lakes	Great Lakes Gas Transmission Limited Partnership
GTN	Gas Transmission Northwest LLC
GTN Settlement	Stipulation and Agreement of Settlement for GTN regarding its rates and terms and conditions of service approved by FERC in November 2011.
LIBOR	London Interbank Offered Rate
Mainline	TransCanada's Mainline, a natural gas transmission system extending from the Alberta/Saskatchewan border east to Quebec
NGA	Natural Gas Act of 1938
North Baja	North Baja Pipeline, LLC
Northern Border	Northern Border Pipeline Company
Other Pipes	North Baja and Tuscarora
Our pipeline systems	Our ownership interests in Great Lakes, Northern Border, GTN, Bison, North Baja and Tuscarora
Partnership	TC PipeLines, LP and its subsidiaries
Partnership Agreement	Second Amended and Restated Agreement of Limited Partnership
PHMSA	U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration
SEC	Securities and Exchange Commission
Senior Credit Facility	TC PipeLines, LP's revolving credit and term loan agreement
TransCanada	TransCanada Corporation and its subsidiaries
Tuscarora	Tuscarora Gas Transmission Company
Tuscarora Settlement	Stipulation and Agreement of Settlement for Tuscarora regarding its rates and terms and conditions of service approved by FERC on March 9, 2012
U.S.	United States of America
WCSB	Western Canada Sedimentary Basin

Unless the context clearly indicates otherwise, TC PipeLines, LP, its subsidiaries and equity investees are collectively referred to in this quarterly report as “we,” “us,” “our” and “the Partnership.” We use “our pipeline systems” when referring to the Partnership’s ownership interests in Great Lakes Gas Transmission Limited Partnership (Great Lakes), Northern Border Pipeline Company (Northern Border), Gas Transmission Northwest LLC (GTN), Bison Pipeline LLC (Bison), North Baja Pipeline, LLC (North Baja) and Tuscarora Gas Transmission Company (Tuscarora).

FORWARD-LOOKING STATEMENTS AND CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This report includes certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are identified by words and phrases such as: “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “forecast,” “should,” “predict,” “could,” “will,” “may,” and other terms and expressions of similar meaning. The absence of these words, however, does not mean that the statements are not forward-looking. These statements are based on management’s beliefs and assumptions and on currently available information and include, but are not limited to, statements regarding anticipated financial performance, future capital expenditures, liquidity, plans and objectives for future operations, organic and strategic growth opportunities, contract renewals and ability to market open capacity, business prospects, outcome of regulatory proceedings, and cash distributions to unitholders.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from future results, performance or achievements expressed or implied in forward-looking statements. Factors that could cause, and in certain instances have caused, actual results to differ materially from those contemplated in forward-looking statements include, but are not limited to:

- the ability of our pipeline systems to generate positive operating cash flows and make cash distributions;
- the ability to sell unsold capacity and renew expiring contracts on our pipeline systems;
- the ability of our pipeline systems to market capacity on favorable terms, which is affected by, among other factors:
 - demand for and prices of natural gas;
 - level of natural gas basis differentials;
 - weather conditions that impact natural gas supply and demand;
 - competitive conditions in the overall natural gas and electricity markets;
 - availability of supplies of Canadian and United States of America (U.S.) natural gas, including the growing supplies of natural gas from shale gas basins such as Horn River and Montney in Western Canada and Appalachian and Barnett in the U.S., and natural gas from conventional basins such as the Western Canada Sedimentary Basin (WCSB), Rocky Mountain, Mid-Continent and Gulf Coast basins;
 - competitive natural gas transmission developments;
 - uncertainty relating to TransCanada’s Mainline (Mainline) rates;
 - the availability of natural gas storage capacity and storage levels;
 - the level of production of natural gas liquids and the subsequent impact on relative competitiveness of gas producing basins; and
 - the ability of shippers to pay including meeting creditworthiness requirements;
- the costs and impact of changes in laws and governmental regulations affecting our pipeline systems, particularly regulations issued by the Federal Energy Regulatory Commission (FERC), the U.S. Environmental Protection Agency (EPA), U.S. Department of Transportation (DOT) and U.S. DOT Pipeline and Hazardous Materials Safety Administration (PHMSA);
- the outcome and frequency of rate proceedings on our pipeline systems;
- changes in relative cost structures and production levels of natural gas producing basins;
- regulatory, financing, construction and operational risks associated with construction and operation of interstate natural gas pipelines;
- our ability to identify and complete expansion projects and other accretive growth opportunities;
- the performance by shippers of their contractual obligations on our pipeline systems;
- changes in the taxation of limited partnerships by states or the federal government such as the elimination of pass-through taxation and the imposition of entity level taxes;
- operating hazards, casualty losses and other matters beyond our control;
- the ability to maintain secure operation of our information technology; and
- unfavorable economic conditions and the impact on capital markets.

These are not the only factors that could cause actual results to differ materially from those expressed or implied in any forward-looking statement. Other factors described elsewhere in this document, or factors that are unknown or

unpredictable, could also have material adverse effects on future results. These and other risks are described in greater detail in Part II, Item 1A. “Risk Factors” in this Form 10-Q and Part I, Item 1A. “Risk Factors” in our Form 10-K for the year ended December 31, 2011. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these factors. These forward-looking statements and information are made only as of the date of the filing of this report and except as required by applicable law, we undertake no obligation to update these forward-looking statements and information to reflect new information, subsequent events or otherwise.

TC PIPELINES, LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 ORGANIZATION

TC PipeLines, LP and its subsidiaries are collectively referred to herein as the Partnership. The Partnership was formed by TransCanada PipeLines Limited, a wholly-owned subsidiary of TransCanada Corporation (TransCanada Corporation together with its subsidiaries collectively referred to herein as TransCanada), to acquire, own and participate in the management of energy infrastructure assets in North America.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The results of operations for the three and six months ended June 30, 2012 and 2011 are not necessarily indicative of the results that may be expected for a full fiscal year. The unaudited interim financial statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011. That report contains a more comprehensive summary of the Partnership's major accounting policies. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all of the appropriate adjustments, all of which are normally recurring adjustments unless otherwise noted, considered necessary to present fairly the financial position of the Partnership, the results of operation and cash flows for the respective periods. Our significant accounting policies are consistent with those disclosed in Note 2 of the financial statements in our Annual Report on Form 10-K for the year ended December 31, 2011. Certain items from that Note are repeated or updated below as necessary to assist in understanding these financial statements.

Amounts are stated in U.S. dollars.

(b) Acquisitions

On May 3, 2011, the Partnership acquired a 25 percent membership interest in each of GTN and Bison from subsidiaries of TransCanada (Acquisitions). The Acquisitions were accounted for as transactions between entities under common control, whereby the equity investments in GTN and Bison were recorded at TransCanada's carrying values. See Note 4 for additional disclosure regarding the Acquisitions.

(c) Use of Estimates

The preparation of financial statements in conformity with United States of America (U.S.) generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates are reasonable, actual results could differ from these estimates. In the opinion of management, these consolidated financial statements have been properly prepared within reasonable limits of materiality and include all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the financial results for the periods presented.

NOTE 3 INVESTMENTS IN UNCONSOLIDATED AFFILIATES

Great Lakes, Northern Border, GTN and Bison are regulated by the Federal Energy Regulatory Commission (FERC) and are operated by TransCanada. We use the equity method of accounting for our interests in our equity investees.

<i>(unaudited)</i> <i>(millions of dollars)</i>	Ownership Interest at June 30, 2012	Equity Earnings from Unconsolidated Affiliates				Investments in Unconsolidated Affiliates	
		Three months ended June 30,		Six months ended June 30,		June 30,	December 31,

GTN ^(b)	25%	4	2	10	2	222	225
Bison ^(b)	25%	3	2	6	2	160	163
		31	37	69	76	1,586	1,610

^(a) Equity earnings from Northern Border is net of the 12-year amortization of a \$10 million transaction fee paid to the operator of Northern Border at the time of the Partnership's additional 20 percent interest acquisition in April 2006.

^(b) 25 percent interests in each of GTN and Bison were acquired in May 2011.

Great Lakes

The Partnership made an equity contribution to Great Lakes of \$4 million in the first quarter of 2012. This amount represents the Partnership's 46.45 percent share of a \$9 million cash call from Great Lakes to make a scheduled debt repayment.

The Partnership recorded no undistributed earnings from Great Lakes for the six months ended June 30, 2012 and 2011.

The summarized financial information for Great Lakes is as follows:

<i>(unaudited)</i> <i>(millions of dollars)</i>	June 30, 2012	December 31, 2011

Net income	32	33	73	75

GTN

On May 3, 2011, the Partnership acquired a 25 percent interest in GTN from a subsidiary of TransCanada. The acquisition was accounted for as a transaction between entities under common control, whereby the equity investment in GTN was recorded at TransCanada's carrying value. See Note 4 for additional disclosure regarding the Acquisitions.

In November 2011, the FERC approved a Stipulation and Agreement of Settlement for GTN (GTN Settlement) with shippers and regulators regarding rates and terms and conditions of service without modification, effective January 1, 2012. The GTN Settlement includes a moratorium on the filing of future rate proceedings until December 31, 2015. Following the expiration of the moratorium, GTN must file a rate case such that the new rates will be effective January 1, 2016.

The Partnership recorded no undistributed earnings from GTN for the six months ended June 30, 2012 and recorded undistributed earnings of \$2 million from May 3, 2011, date of acquisition, to June 30, 2011.

The summarized financial information for GTN is as follows:

^(a) 25 percent interest in GTN was acquired in May 2011.

Bison

On May 3, 2011, the Partnership acquired a 25 percent interest in Bison from a subsidiary of TransCanada. The acquisition was accounted for as a transaction between entities under common control, whereby the equity investment in Bison was recorded at TransCanada's carrying value. See Note 4 for additional disclosure regarding the Acquisitions.

The Partnership recorded no undistributed earnings from Bison for the six months ended June 30, 2012 and recorded undistributed earnings of \$2 million from May 3, 2011, date of acquisition, to June 30, 2011.

The summarized financial information for Bison is as follows:

^(a) 25 percent interest in Bison was acquired in May 2011.

NOTE 4 ACQUISITIONS

GTN and Bison Equity Investment Acquisitions

On May 3, 2011, the Partnership acquired 25 percent interests in each of GTN and Bison from subsidiaries of TransCanada.

The total purchase price of the Acquisitions was \$605 million (the Purchase Price). The Purchase Price consisted of (i) \$405 million for the GTN membership interest (less \$81 million, which reflected 25 percent of GTN's outstanding debt at the time of the acquisition), (ii) \$200 million for the membership interest in Bison (less a \$9 million future capital commitment to complete the Bison pipeline), (iii) \$23 million at closing and (iv) \$1 million in working capital adjustments paid in the fourth quarter of 2011. The resulting \$539 million paid by the Partnership was financed through a combination of (i) an issuance of 7,245,000 common units offered to the public at \$47.58 per common unit resulting in net proceeds of \$331 million, (ii) a draw of \$61 million on the Partnership's committed \$400 million bridge loan facility, (iii) a draw of \$125 million on the Partnership's then existing \$250 million senior revolving credit facility, (iv) a capital contribution from TC PipeLines GP, Inc. (General Partner) of \$7 million, which was required to maintain the General Partner's effective two percent general partner interest in the Partnership, and (v) approximately \$15 million of cash on hand.

The Acquisitions were accounted for as transactions between entities under common control, whereby the equity investments in both GTN and Bison were recorded at TransCanada's carrying values and the total excess purchase price paid was recorded as a reduction to Partners' Equity.

Yuma Lateral Asset Acquisition

Pursuant to an amendment to the acquisition agreement between the Partnership and TransCanada relating to the Partnership's acquisition of North Baja, the Partnership agreed to make an additional payment of up to \$2 million to TransCanada in the event that TransCanada secured additional contracts for transportation service before December 31, 2010. TransCanada secured an additional contract in July 2010 and, as a result, the Partnership paid \$2 million to TransCanada on March 25, 2011 when the facilities associated with the contract were completed.

NOTE 5 CREDIT FACILITIES AND LONG-TERM DEBT

<i>(unaudited)</i> <i>(millions of dollars)</i>	June 30, 2012	December 31, 2011
Senior Credit Facility due 2016	321	363
4.65% Senior Notes due 2021	349	349
6.89% Series C Senior Notes due 2012	3	3
3.82% Series D Senior Notes due 2017	27	27
	700	742
Less: current portion of long-term debt	3	3
	697	739

The Partnership's Senior Credit Facility consists of a \$500 million senior revolving credit facility with a banking syndicate, maturing July 13, 2016, under which \$321 million was outstanding at June 30, 2012 (December 31, 2011 - \$363 million), leaving \$179 million available for future borrowing.

The London Interbank Offered Rate (LIBOR) based interest rate on the Senior Credit Facility averaged 1.62 and 1.64 percent for the three and six months ended June 30, 2012, respectively. The LIBOR-based interest rate was 1.63 percent at June 30, 2012.

The LIBOR-based interest rate on the Senior Credit Facility averaged 0.9 percent for the three and six months ended June 30, 2011. After hedging activity, the LIBOR-based interest rate incurred on the Senior Credit Facility averaged 3.5 percent and 3.7 percent for the three and six months ended June 30, 2011. Prior to hedging activities, the LIBOR-based interest rate was 0.6 percent at June 30, 2011.

At June 30, 2012, the Partnership was in compliance with its financial covenants, in addition to the other covenants which include restrictions on entering into mergers, consolidations and sales of assets, granting liens, material amendments to the Partnership Agreement, incurring additional debt and distributions to unitholders.

The principal repayments required on the long-term debt are as follows:

NOTE 6 NET INCOME PER COMMON UNIT

Net income per common unit is computed by dividing net income, after deduction of the General Partner's allocation, by the weighted average number of common units outstanding. The General Partner's allocation is equal to an amount based upon the General Partner's effective two percent general partner interest, plus an amount equal to incentive distributions. Incentive distributions are paid to the General Partner if quarterly cash distributions on the common units exceed levels specified in the Partnership Agreement.

Net income per common unit was determined as follows:

<i>(unaudited)</i> <i>(millions of dollars, except per unit)</i>	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Net income ^(a)	33	36	72	78
Net income allocated to General Partner	(1)	(1)	(2)	(2)
Net income allocable to common units	32	35	70	76
Weighted average common units outstanding <i>(millions)</i>	53.5	50.9	53.5	48.6
Net income per common unit	\$0.60	\$0.69	\$1.31	\$1.58

^(a) 25 percent interests in each of GTN and Bison were acquired in May 2011.

NOTE 7 CASH DISTRIBUTIONS

For the three and six months ended June 30, 2012, the Partnership distributed \$0.77 and \$1.54 per common unit (2011 - \$0.75 and \$1.50 per common unit) for a total of \$42 million and \$84 million, respectively. The distributions

paid for the three and six months ended June 30, 2012 and 2011 included no incentive distributions to the General Partner.

NOTE 8 CHANGE IN WORKING CAPITAL

	2012	2011
Decrease in accounts receivable	1	-
Increase/(decrease) in accounts payable and accrued liabilities	1	(2)
Decrease/(increase) in operating working capital	2	(2)

NOTE 9 RELATED PARTY TRANSACTIONS

The Partnership does not have any employees. The management and operating functions are provided by the General Partner. The General Partner does not receive a management fee in connection with its management of the Partnership. The Partnership reimburses the General Partner for all costs of services provided, including the costs of employee, officer and director compensation and benefits, and all other expenses necessary or appropriate to the conduct of the business of, and allocable to, the Partnership. Such costs include (i) overhead costs (such as office space and equipment) and (ii) out-of-pocket expenses related to the provision of such services. The Partnership Agreement provides that the General Partner will determine the costs that are allocable to the Partnership in any reasonable manner determined by the General Partner in its sole discretion. Total costs charged to the Partnership by the General Partner were nil and \$1 million for the three and six months ended June 30, 2012 (2011 – nil and \$1 million).

As operator, TransCanada's subsidiaries provide capital and operating services to our pipeline systems. TransCanada's subsidiaries incur costs on behalf of our pipeline systems, including, but not limited to, employee salary and benefit costs, and property and liability insurance costs.

Capital and operating costs charged to our pipeline systems for the three and six months ended June 30, 2012 and 2011 by TransCanada's subsidiaries and amounts payable to TransCanada's subsidiaries at June 30, 2012 and December 31, 2011 are summarized in the following tables:

<i>(unaudited)</i> <i>(millions of dollars)</i>	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011

Great Lakes ^(a)	3	3
Northern Border ^(a)	3	3
GTN ^(a)	3	3
Bison ^(a)	1	1
North Baja	-	1
Tuscarora	-	1

^(a) Represents 100 percent of the costs.

Great Lakes' earns transportation revenues from TransCanada and its affiliates under contracts, some of which are provided at discounted rates and some at maximum recourse rates. Great Lakes earned \$17 million and \$41 million of transportation revenues under these contracts for the three and six months ended June 30, 2012 (2011 - \$18 million and \$42 million). These amounts represent 37 percent and 43 percent of total revenues earned by Great Lakes for the three and six months ended June 30, 2012 (2011 - 28 percent and 32 percent).

Revenue from TransCanada and its affiliates of \$8 million and \$19 million are included in the Partnership's equity earnings from Great Lakes for the three and six months ended June 30, 2012 (2011 - \$9 million and \$20 million). At June 30, 2012, \$6 million was included in Great Lakes' receivables in regards to the transportation contracts with TransCanada and its affiliates (December 31, 2011 - \$7 million).

NOTE 10 FINANCIAL INSTRUMENTS

The carrying value of cash and cash equivalents, accounts receivable and other, accounts payable and accrued liabilities, and accrued interest approximate their fair values because of the short maturity or duration of these instruments, or because the instruments bear a variable rate of interest or a rate that approximates current rates. The fair value of the Partnership's long-term debt is estimated by discounting the future cash flows of each instrument at estimated current borrowing rates. The estimated fair values of the Partnership's and its subsidiary's long-term debt as of June 30, 2012 is \$732 million (December 31, 2011 - \$763 million).

The Partnership's long-term debt results in exposures to changing interest rates. Until December 12, 2011, the Partnership used derivatives to assist in managing its exposure to interest rate risk. For the three and six months ended June 30, 2012, the Partnership recorded interest expense of nil on interest rate swaps and options (2011 - \$3 and \$7 million).

NOTE 12 REGULATORY MATTERS

Tuscarora – On March 9, 2012, Tuscarora received approval from the FERC for the Tuscarora Settlement. The Tuscarora Settlement includes three-year contract extensions to the term of a number of contracts with Tuscarora's largest customer, provides for new rates effective January 1, 2012, and a moratorium on the filing of future rate proceedings under NGA Sections 4 or 5 until December 31, 2014. Pursuant to the Tuscarora Settlement, Tuscarora will have no future obligation to file a Section 4 rate case.

NOTE 13 ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (FASB) issued an update to Accounting Standards Codification (ASC) 350 – Intangibles – Goodwill and Other. Adoption of this update has resulted in a change in the accounting policy related to testing goodwill for impairment, as the Partnership is now permitted under U.S. GAAP to first assess qualitative factors affecting the fair value of a reporting unit in comparison to the carrying amount as a basis for determining whether it is required to proceed to the two-step quantitative impairment test. The Partnership adopted this update effective January 1, 2012. The adoption of this update is not expected to have a material impact on our annual goodwill assessment.

NOTE 14 SUBSEQUENT EVENTS

On July 24, 2012, the board of directors of our General Partner declared the Partnership's second quarter 2012 cash distribution in the amount of \$0.78 per common unit payable on August 14, 2012 to unitholders of record as of August 3, 2012.

Great Lakes declared its second quarter 2012 distribution of \$23 million on July 20, 2012, of which the Partnership will receive its 46.45 percent share or \$11 million on August 1, 2012.

Northern Border declared its second quarter 2012 distribution of \$40 million on July 20, 2012, of which the Partnership will receive its 50 percent share or \$20 million on August 1, 2012.

GTN declared its second quarter 2012 distribution of \$29 million on July 20, 2012, of which the Partnership will receive its 25 percent share or \$7 million on August 1, 2012.

Bison declared its second quarter 2012 distribution of \$16 million on July 20, 2012, of which the Partnership will receive its 25 percent share or \$4 million on August 1, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited financial statements and notes included in Item 1. "Financial Statements" of this Quarterly Report on Form 10-Q as well as our Annual Report on Form 10-K for the year ended December 31, 2011.

RECENT DEVELOPMENTS

On April 24, 2012, the board of directors of our General Partner declared the Partnership's first quarter 2012 cash distribution in the amount of \$0.77 per common unit, payable on May 15, 2012 to unitholders of record as of May 4, 2012.

On July 24, 2012, the board of directors of our General Partner declared the Partnership's second quarter 2012 cash distribution in the amount of \$0.78 per common unit, an increase of \$0.01 from the prior quarter, payable on August 14, 2012 to unitholders of record as of August 3, 2012.

Consistent with the results we experienced in November and December 2011, during the first quarter of 2012, Great Lakes was unable to market all of its available long-haul capacity, which historically has been fully sold by the first quarter. During the first quarter, an average of 440 thousand dekatherms per day or 28 percent of Great Lakes' available annual long-haul capacity went unsold. As a result of the unsold winter capacity, Great Lakes' transmission revenue for the first quarter of 2012 was \$21 million lower than the same period in 2011. This resulted in a \$9 million reduction to the Partnership's equity earnings in the first quarter of 2012 compared to the first quarter of 2011.

In the second quarter of 2012 Great Lakes' long-haul capacity was sold at lower rates compared to the same period in 2011 resulting in transmission revenues of \$47 million for the second quarter of 2012 being \$16 million lower than the same period in 2011. This resulted in a \$7 million reduction to the Partnership's equity earnings in the second quarter of 2012 compared to the second quarter of 2011.

On March 9, 2012, Tuscarora received FERC approval of the Tuscarora Settlement effective January 1, 2012. Compared to 2011, the Tuscarora Settlement will reduce Tuscarora's cash flows by approximately \$6 million in 2012. Net income will be reduced by \$3 million as a result of the lower revenue offset by lower depreciation expense.

Northern Border's long-haul capacity is substantially contracted through March 2013. Despite the warm winter and low basis differentials across North America, Northern Border has successfully negotiated contract extensions for substantially all of the Canada to Ventura contracts that expire in 2012. The majority of these extensions are for terms of three years or longer.

Customers and Contracting

As of July 1, 2012, the following table provides information with respect to the contract profile of our pipeline systems over the next five years calculated as a percentage of the Partnership's total proportionate share of 2011 revenue from each of our pipeline systems, being \$387 million:

	Future Revenues Underpinned by Long-Term Contracts, as a Percentage of 2011 Total Revenue ^{(a)(b)}
2012	90%
2013	63%
2014	55%
2015	48%
2016	41%

(a) Long-term contracts are contracts with terms greater than twelve months.

(b) Projections are based on rates in effect as of July 1, 2012.

Most contracting on our pipeline systems consist of arrangements where shippers are obligated to pay for their contracted capacity regardless of utilization.

Outlook of Our Business

Great Lakes has historically been fully contracted for long-term, long-haul capacity. Due to near term market conditions and continuing shifts in fundamentals across the North American natural gas market, the composition of Great Lakes' revenue continues to shift more toward shorter-term, short-haul and bidirectional transportation. Management expects this trend to continue. Great Lakes is fully contracted for its long-haul capacity through the current summer season, which ends October 31, 2012, at lower rates relative to the same period of 2011. As a result, we expect Great Lakes' transmission revenue for the third quarter of 2012 and the resulting impact to the Partnership's equity earnings to be similar to the second quarter of 2012. Currently, 22 percent of Great Lakes' long-haul capacity available at November 1, 2012 is contracted, although at less than maximum rates. Great Lakes' ability to sell its available and future capacity will depend on future market conditions which are impacted by a number of factors including, weather for winter 2012/2013, levels of natural gas in storage, the price of natural gas liquids and the associated impact to North American natural gas production and the level of TransCanada's Mainline tolls. These factors could negatively impact our fourth quarter 2012 earnings and could continue to negatively impact our earnings for 2013.

Northern Border operates pursuant to a 2007 rate case settlement and is required to file a rate case or reach a settlement on or before December 31, 2012.

The results from the ownership interests in the other pipelines in our portfolio continue to be relatively consistent year over year reflecting the longer term contract status and recent regulatory settlements.

REGULATORY ENVIRONMENT

FERC Rate Proceedings

Tuscarora – On March 9, 2012, Tuscarora received approval from the FERC for the Tuscarora Settlement. The Tuscarora Settlement includes three-year contract extensions to the term of a number of contracts with Tuscarora's largest customer, provides for new rates effective January 1, 2012, and a moratorium on the filing of future rate

proceedings under NGA Sections 4 or 5 until December 31, 2014. Pursuant to the Tuscarora Settlement, Tuscarora will have no future obligation to file a Section 4 rate case.

HOW WE EVALUATE OUR OPERATIONS

We evaluate our business primarily on the basis of the underlying operating results for each of our pipeline systems, along with a measure of Partnership cash flows. This measure does not have any standardized meaning prescribed by U.S. generally accepted accounting principles (GAAP). It is, therefore, considered to be a non-GAAP measure and is unlikely to be comparable to similar measures presented by other entities. Partnership cash flows include cash distributions from the Partnership's equity investments, Great Lakes, Northern Border, GTN and Bison plus operating cash flows from the Partnership's wholly-owned subsidiaries, North Baja and Tuscarora, net of Partnership costs and distributions declared to the General Partner.

RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions with respect to values or conditions, which cannot be known with certainty, that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions also affect the reported amounts of revenue and expenses during the reporting period. Although we believe these estimates and assumptions are reasonable, actual results could differ. There were no significant changes to the Partnership's critical accounting policies and estimates during the three and six months ended June 30, 2012.

Information about our critical accounting policies and estimates is included under Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on Form 10-K for the year ended December 31, 2011.

Accounting Pronouncements

Effective January 1, 2012, the Partnership adopted Accounting Standards Codification (ASC) 350 – Intangibles – Goodwill and Other on testing goodwill for impairment as issued by the Financial Accounting Standards Board (FASB). Adoption of ASC 350 has resulted in a change in the accounting policy related to testing goodwill for impairment, as the company is now permitted under U.S. GAAP to first assess qualitative factors affecting the fair value of a reporting unit in comparison to the carrying amount as a basis for determining whether it is required to proceed to the two-step quantitative impairment test.

Net Income

To supplement our financial statements, we have presented a comparison of the earnings contribution components from each of our investments. We have presented earnings in this format to enhance investors' understanding of the way management analyzes our financial performance. We believe this summary provides a more meaningful comparison of our current period earnings to prior year periods, as we account for our partially-owned pipeline systems using the equity method. The presentation of this additional information is not meant to be considered in isolation or as a substitute for results prepared in accordance with GAAP.

<i>(unaudited)</i> <i>(millions of dollars)</i>	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Equity earnings:				
Great Lakes	8	17	17	35
Northern Border	16	16	36	37
GTN ^(a)	4	2	10	2
Bison ^(a)	3	2	6	2

^(a) 25 percent interests in each of GTN and Bison were acquired in May 2011.

^(b) "Other Pipes" includes the results of North Baja and Tuscarora.

Second Quarter 2012 Compared with Second Quarter 2011

Net income decreased \$3 million to \$33 million in the second quarter of 2012 compared to \$36 million in the same period in 2011. This decrease was primarily due to lower equity earnings from Great Lakes, partially offset by earnings from GTN and Bison, which were acquired in May 2011, and lower Partnership expenses.

Equity earnings from Great Lakes were \$8 million in the second quarter of 2012, a decrease of \$9 million compared to \$17 million earned in the second quarter of 2011. This decrease was primarily due to lower transportation revenue resulting from previously long-term, long-haul summer capacity now being sold as short-term at lower rates relative to the same period in 2011 and the cumulative one-time impact relating to a tax law change eliminating Michigan business taxes at the Partnership level.

Expenses at the Partnership level were \$8 million for the three months ended June 30, 2012, a decrease of \$3 million compared to \$11 million for the same period in 2011. This decrease was primarily due to costs incurred relating to the GTN and Bison acquisitions in 2011.

Six Months Ended June 30, 2012 Compared with Six Months ended June 30, 2011

Net income decreased \$6 million to \$72 million for the six months ended June 30, 2012 compared to \$78 million in the same period in 2011. This decrease was primarily due to lower equity income from Great Lakes, partially offset by earnings from GTN and Bison, which were acquired in May 2011, and lower Partnership expenses.

Equity earnings from Great Lakes was \$17 million for the six months ended June 30, 2012, a decrease of \$18 million compared to \$35 million for the same period last year. This decrease was primarily due to lower transportation revenue due to unsold long-term, long-haul winter capacity in 2012 and summer capacity sold as short-term at lower rates in the second quarter of 2012 compared to the same period in 2011.

Expenses at the Partnership level were \$16 million for the six months ended June 30, 2012, a decrease of \$2 million compared to \$18 million for the same period in 2011. This decrease was primarily due to costs incurred relating to the GTN and Bison acquisitions in 2011.

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of liquidity include distributions received from our investments in unconsolidated affiliates, operating cash flows from North Baja and Tuscarora, public offerings of debt and equity and our bank credit facility. The Partnership funds its operating expenses, debt service and cash distributions primarily with operating cash flow. Long-term capital needs may be met through the issuance of long-term debt and/or equity.

Our pipeline systems' principal sources of liquidity are cash generated from operating activities, long-term debt offerings, bank credit facilities and equity contributions from their owners. Our pipeline systems have historically

funded operating expenses, debt service and cash distributions to their owners primarily with operating cash flow. However, in fourth quarter 2010, Great Lakes started funding its debt repayments with cash calls to its owners.

Capital expenditures are funded by a variety of sources, including cash generated from operating activities, borrowings under bank credit facilities, issuance of senior unsecured notes or equity contributions from our pipeline systems' owners. The ability of our pipeline systems to access the debt capital markets under reasonable terms depends on their financial position and general market conditions.

The Partnership's pipeline systems monitor the creditworthiness of their customers and have credit provisions included in their tariffs, which allow them to request credit support as circumstances dictate.

We expect to be able to fund our liquidity requirements over the next twelve months. We believe that our pipeline systems' ability to obtain financing at reasonable rates, together with their history of consistent cash flow from operating activities, provide a solid foundation to meet their future liquidity and capital resource requirements. The reduction in long-term firm contracts underpinning revenues on Great Lakes beyond 2012 is consistent with the industry trend towards short-term contracting, and may result in lower or volatile operating cash flow from Great Lakes. This may impact Great Lakes' ability to fund its liquidity requirements including making distributions to its owners. Management cannot reasonably estimate the impact this will have on long-term cash flows.

Partnership Cash Flows

The Partnership uses the non-GAAP financial measures "Partnership cash flows" and "Partnership cash flows before General Partner distributions" as they provide a measure of cash generated during the period to evaluate our cash distribution capability. As well, management uses these measures as a basis for recommendations to our General Partner's board of directors regarding the distribution amount to be declared each quarter. Partnership cash flow information is presented to enhance investors' understanding of the way that management analyzes the Partnership's financial performance.

The Partnership calculates Partnership cash flows as net income plus operating cash flows from the Partnership's wholly-owned subsidiaries, North Baja and Tuscarora, and cash distributions received in excess of equity earnings from the Partnership's equity investments, Great Lakes, Northern Border, GTN and Bison, net of distributions declared to the General Partner. Partnership cash flows before General Partner distributions represent Partnership cash flows prior to distributions declared to the General Partner.

Partnership cash flows and Partnership cash flows before General Partner distributions are provided as a supplement to GAAP financial results and are not meant to be considered in isolation or as substitutes for financial results prepared in accordance with GAAP.

Non-GAAP Measures

Reconciliations of Net Income to Partnership Cash Flows

Cash distributions declared per common unit ^(d)	0.78	\$0.77	1.55	\$1.52
Cash distributions paid	(42)	(35)	(84)	(71)
Cash distributions paid per common unit ^(d)	0.77	\$0.75	1.54	\$1.50

^(a) 25 percent interests in each of GTN and Bison were acquired in May 2011.

^(b) In accordance with the cash distribution policies of the respective pipeline systems, cash distributions from Great Lakes, Northern Border, GTN and Bison are based on their respective prior quarter financial results.

^(c) General Partner distributions represent the cash distributions declared to the General Partner with respect to its two percent interest plus an amount equal to incentive distributions. Incentive distributions in the first and second quarter of 2012 and 2011 were nil.

^(d) Cash distributions declared per common unit and cash distributions paid per common unit are computed by dividing cash distributions, after the deduction of the General Partner's allocation, by the number of common units outstanding. The General Partner's allocation is computed based upon the General Partner's two percent interest plus an amount equal to incentive distributions.

Second Quarter 2012 Compared with Second Quarter 2011

Partnership cash flows increased \$4 million to \$52 million in the second quarter of 2012 compared to \$48 million in the same period of 2011. This increase was primarily due to cash distributions of \$12 million from GTN and Bison, which were acquired in May 2011, partially offset by decreased cash distributions from Great Lakes of \$10 million.

The Partnership paid distributions of \$42 million in the second quarter of 2012, an increase of \$7 million compared to the same period in 2011 due to an increase in the number of common units outstanding and an increase of \$0.02 per common unit paid beginning in the third quarter of 2011.

Six Months Ended June 30, 2012 Compared with Six Months Ended June 30, 2011

Partnership cash flows increased \$6 million to \$102 million for the six months ended June 30, 2012 compared to \$96 million in the same period of 2011. This increase was primarily due to cash distributions of \$21 million from GTN and Bison, which were acquired in May 2011, partially offset by decreased cash distributions from Great Lakes of \$16 million.

The Partnership paid distributions of \$84 million in the six months ended June 30, 2012, an increase of \$13 million compared to the same period in 2011 due to an increase in the number of common units outstanding and an increase of \$0.02 per common unit paid beginning in the third quarter of 2011.

Other Cash Flows

On March 23, 2012, the Partnership made an equity contribution of \$4 million to Great Lakes that was used to fund debt repayments.

Contractual Obligations

The Partnership's contractual obligations related to debt as of June 30, 2012 included the following:

<i>(millions of dollars)</i>	Payments Due by Period		
	Total	Less than 1 Year	Long-term Portion
Senior Credit Facility due 2016	321	-	321
4.65% Senior Notes due 2021	349	-	349
6.89% Series C Senior Notes due 2012	3	3	-
3.82% Series D Notes due 2017	27	-	27
	700	3	697

The Partnership's Senior Credit Facility consists of a \$500 million senior revolving credit facility with a banking syndicate, maturing July 13, 2016, under which \$321 million was outstanding at June 30, 2012 (December 31, 2011 - \$363 million), leaving \$179 million available for future borrowing.

The LIBOR-based interest rate on the Senior Credit Facility averaged 1.62 and 1.64 percent for the three and six months ended June 30, 2012 respectively. The LIBOR-based interest rate was 1.63 percent at June 30, 2012.

The LIBOR-based interest rate on the Senior Credit Facility averaged 0.9 percent for the three and six months ended June 30, 2011. After hedging activity, the LIBOR-based interest rate incurred on the Senior Credit Facility averaged 3.5 and 3.7 percent for the three and six months ended June 30, 2011. Prior to hedging activities, the LIBOR-based interest rate was 0.6 percent at June 30, 2011.

At June 30, 2012, the Partnership was in compliance with its financial covenants, in addition to the other covenants which include restrictions on entering into mergers, consolidations and sales of assets, granting liens, material amendments to the Partnership Agreement, incurring additional debt and distributions to unitholders.

Series C and D Senior Notes are secured by Tuscarora's transportation contracts, supporting agreements and substantially all of Tuscarora's property. The note purchase agreements contain certain provisions that include, among other items, limitations on additional indebtedness and distributions to partners.

The Partnership's long-term debt results in exposures to changing interest rates. Until December 12, 2011, the Partnership used derivatives to assist in managing its exposure to interest rate risk. For the three and six months ended June 30, 2012, the Partnership recorded interest expense of nil on interest rate swaps and options (2011 - \$3 and \$7 million).

Great Lakes' contractual obligations related to debt as of June 30, 2012 included the following:

<i>(millions of dollars)</i>	Payments Due by Period		
	Total	Less than 1 Year	Long-term Portion
6.73% series Senior Notes due 2013 to 2018	54	9	45
9.09% series Senior Notes due 2012 and 2021	100	10	90
6.95% series Senior Notes due 2019 and 2028	110	-	110
8.08% series Senior Notes due 2021 and 2030	100	-	100
	364	19	345

Great Lakes is required to comply with certain financial, operational and legal covenants. Under the most restrictive covenants in the Senior Note Agreements, approximately \$196 million of Great Lakes' partners' capital was restricted as to distributions as of June 30, 2012 (December 31, 2011 – \$201 million). Great Lakes was in compliance with all of its financial covenants at June 30, 2012.

Northern Border's contractual obligations related to debt as of June 30, 2012 included the following:

<i>(millions of dollars)</i>	Payments Due by Period		
	Total	Less than 1 Year	Long-term Portion
6.24% Senior Notes due 2016	100,000	-	100,000
7.50% Senior Notes due 2021	250,000	-	250,000
\$200 million Credit Agreement due 2016	128,000	-	128,000
	478,000	-	478,000

As of June 30, 2012, \$128 million was outstanding under its \$200 million revolving credit agreement, leaving \$72 million available for future borrowings. The weighted average interest rate related to the borrowings on the credit agreement was 1.62 percent as of June 30, 2012. At June 30, 2012, Northern Border was in compliance with all of its financial covenants.

Northern Border has commitments of \$3 million as of June 30, 2012 in connection with various overhaul projects and a transformer upgrade.

GTN's contractual obligations related to debt as of June 30, 2012 included the following:

<i>(millions of dollars)</i>	Payments Due by Period		
	Total	Less than 1 Year	Long-term Portion
5.09% Senior Notes due 2015	75,000	-	75,000
5.29% Senior Notes due 2020	100,000	-	100,000
5.69% Senior Notes due 2035	150,000	-	150,000
	325,000	-	325,000

The 2005 Note Purchase Agreement contains a covenant that limits total debt to no greater than 70 percent of total capitalization. At June 30, 2012, the total debt to total capitalization ratio was 39 percent.

GTN was in compliance with all terms and conditions of all its credit and other debt agreements at June 30, 2012.

Bison had commitments of \$6 million as of June 30, 2012 in connection with reclamation and restoration work associated with the construction of the pipeline.

Capital Requirements

The Partnership made an equity contribution to Great Lakes of \$4 million in the first quarter of 2012. This amount represents the Partnership's 46.45 percent share of a \$9 million cash call from Great Lakes to make a scheduled debt repayment. It expects to make an additional equity contribution to Great Lakes of \$5 million in the fourth quarter of

2012. This amount represents the Partnership's 46.45 percent share of a \$10 million cash call from Great Lakes to make a scheduled debt repayment.

To the extent the Partnership has any additional capital requirements with respect to our pipeline systems or acquisitions in the future; we expect to fund these requirements with operating cash flows, debt and/or equity.

2012 Second Quarter Cash Distribution

On July 24, 2012, the board of directors of our General Partner declared the Partnership's second quarter 2012 cash distribution in the amount of \$0.78 per common unit payable on August 14, 2012 to unitholders of record as of August 3, 2012.

RELATED PARTY TRANSACTIONS

Please read Note 9 within Item 1. "Financial Statements" for information regarding related party transactions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

OVERVIEW

The Partnership and our pipeline systems are also exposed to other risks such as interest rate, credit, liquidity and foreign exchange risks. Our exposure to market risk discussed below includes forward-looking statements and is not necessarily indicative of actual results, which may not represent the maximum possible gains and losses that may occur, since actual gains and losses will differ from those estimated, based on actual market conditions.

Market risk is the risk of loss arising from adverse changes in market rates. Our primary risk management objective is to protect earnings and cash flow, and ultimately, unitholder value. We do not use financial instruments for trading purposes.

We record derivative financial instruments on the balance sheet as assets and liabilities at fair value. We estimate the fair value of derivative financial instruments using available market information and appropriate valuation techniques. Changes in the fair value of derivative financial instruments are recognized in earnings unless the instrument qualifies as a hedge and meets specific hedge accounting criteria. Qualifying derivative financial instruments' gains and losses may offset the hedged items' related results in earnings for a fair value hedge or be deferred in accumulated other comprehensive income for a cash flow hedge.

MARKET RISK AND INTEREST RATE RISK

From time to time, and in order to finance our business and that of our pipeline systems, the Partnership and our pipeline systems issue debt to invest in growth opportunities and provide for ongoing operations. The issuance of debt exposes the Partnership and our pipeline systems to market risk from changes in interest rates which affect earnings and the value of the financial instruments we hold.

The Partnership and our pipeline systems use derivatives as part of our overall risk management policy to manage exposures to market risk resulting from these activities within established policies and procedures. Derivative contracts used to manage market risk generally consist of the following:

- Swaps – contractual agreements between two parties to exchange streams of payments over time according to specified terms. The Partnership and our pipeline systems enter into interest rate swaps to mitigate the impact of changes in interest rates.
- Options – contractual agreements to convey the right, but not the obligation, for the purchaser to buy or sell a specific amount of a financial instrument at a fixed price, either at a fixed date or at any time within a specified period. The Partnership and our pipeline systems enter into option agreements to mitigate the impact of changes in interest rates.

Interest rate risk is created by fluctuations in the fair values or cash flows of financial instruments due to changes in the market interest rates. Our interest rate exposure results from our Senior Credit Facility, which is subject to variability in LIBOR interest rates. We regularly assess the impact of interest rate fluctuations on future cash flows and evaluate hedging opportunities to mitigate our interest rate risk.

Until December 12, 2011, the Partnership used derivatives to assist in managing its exposure to interest rate risk. In the three and six months ended June 30, 2012, the Partnership recorded interest expense of nil on the interest rate swaps and options (2011 – \$3 and 7 million).

At June 30, 2012, we had \$321 million (December 31, 2011 – \$363 million) outstanding on our Senior Credit Facility. If LIBOR interest rates hypothetically increased by one percent (100 basis points) compared to the rates in effect at June 30, 2012, our annual interest expense would increase and our net income would decrease by \$3 million; and if LIBOR interest rates hypothetically decreased by one percent compared to the rates in effect at June 30, 2012, our annual interest expense would decrease and our net income would increase by \$3 million.

Northern Border utilizes both fixed-rate and variable-rate debt and is exposed to market risk due to the floating interest rates on its revolving credit facility. Northern Border regularly assesses the impact of interest rate fluctuations on future cash flows and evaluates hedging opportunities to mitigate its interest rate risk. As of June 30, 2012, 73 percent of Northern Border's outstanding debt was at fixed rates (December 31, 2011 – 74 percent).

If interest rates hypothetically increased by one percent (100 basis points) compared with rates in effect at June 30, 2012, Northern Border's annual interest expense would increase and its net income would decrease by approximately \$1 million; and if interest rates hypothetically decreased by one percent compared with rates in effect at June 30, 2012, Northern Border's annual interest expense would decrease and its net income would increase by approximately \$1 million.

Great Lakes, GTN and Tuscarora utilize fixed-rate debt; therefore, they are not exposed to market risk due to floating interest rates. Interest rate risk does not apply to Bison and North Baja, as they currently do not have any debt.

OTHER RISKS

The Partnership is influenced by the same factors that influence our pipeline systems. None of our pipeline systems own any of the natural gas they transport; therefore, they do not assume any of the related natural gas commodity price risk with respect to transported natural gas volumes.

Counterparty credit risk represents the financial loss that the Partnership and our pipeline systems would experience if a counterparty to a financial instrument failed to meet its obligations in accordance with the terms and conditions of its contracts with the Partnership or its pipeline systems. Our maximum counterparty credit exposure with respect to financial instruments at the balance sheet date consists primarily of the carrying amount, which approximates fair value, of non-derivative financial assets, such as accounts receivable. At June 30, 2012, the Partnership's maximum counterparty credit exposure consisted of accounts receivable of \$7 million (December 31, 2011 – \$8 million).

The Partnership and our pipeline systems have significant credit exposure to financial institutions as they provide committed credit lines and critical liquidity in the interest rate derivative market, as well as letters of credit to mitigate exposures to non-creditworthy parties. Due to the lingering effects of the deterioration of global financial markets in the past few years, we continue to closely monitor the creditworthiness of our counterparties, including financial institutions. Overall, we do not believe the Partnership and our pipeline systems have any significant concentrations of counterparty credit risk.

Liquidity risk is the risk that the Partnership and our pipeline systems will not be able to meet our financial obligations as they become due. Our approach to managing liquidity risk is to ensure that we always have sufficient cash and credit facilities to meet our obligations when due, under both normal and stressed conditions, without incurring unacceptable losses or damage to our reputation. At June 30, 2012, the Partnership had a committed revolving bank line of \$500 million maturing in 2016 with an outstanding balance of \$321 million. In addition, at

June 30, 2012, Northern Border had a committed revolving bank line of \$200 million maturing in 2016 of which \$128 million was drawn.

The Partnership does not have any material foreign exchange risks.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As required by Rule 13a-15(e) under the Exchange Act, the management of our General Partner, including the principal executive officer and principal financial officer, evaluated as of the end of the period covered by this report the effectiveness of our disclosure controls and procedures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. The Partnership's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Based upon and as of the date of the evaluation, the management of our General Partner, including the principal executive officer and principal financial officer, concluded that the Partnership's disclosure controls and procedures as of the end of the period covered by this quarterly report were effective to provide reasonable assurance that the information required to be disclosed by the Partnership in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is (a) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) accumulated and communicated to the management of our General Partner, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

During the three months ended June 30, 2012, there was no change in the Partnership's internal control over financial reporting that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

On March 9, 2012, Tuscarora received approval from the FERC for the Tuscarora Settlement. For additional information on the Tuscarora Settlement and a description of other legal and environmental proceedings affecting the Partnership, please refer to Part 1. Item 3 of the Partnership's Annual Report on Form 10-K for the year-ended December 31, 2011.

In addition to the above written matters, we and our pipeline systems are parties to lawsuits and governmental proceedings that arise in the ordinary course of our business.

Item 1A. Risk Factors

The following updated risk factors should be read in conjunction with the risk factors disclosed in Part I, Item 1A. "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2011.

Our business could be negatively impacted by security threats, including cyber security threats, and related disruptions.

We depend on the secure operation of our information technology to process, transmit and store electronic information, including information we use to safely operate our pipeline systems. Security breaches could expose our business to a risk of loss, misuse or interruption of critical information and functions that affect the pipeline operations. Such losses could result in operational impacts, damage to our assets, safety incidents, damage to the environment, reputational harm, competitive disadvantage, regulatory enforcement actions, potential litigation and a material adverse effect on our operations, financial position and results of operations.

**CERTIFICATION OF
PRINCIPAL EXECUTIVE OFFICER**

I, Steven D. Becker, certify that:

1. I have reviewed this quarterly report on Form 10-Q of TC PipeLines, LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluations; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation, of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
